CHRISTIANS BETRAYED TO ENEMIES BY POLITICAL AND RELIGIOUS LEADERS

By **BENJAMIN H. FREEDMAN**

Founder 1946

League for Peace with Justice in Palestine

Christians in the United States must prepare for the greatest shock they have ever experienced. They will be shocked as never before in their lives when they learn the nature and the extent of their betrayal to their enemies by their political and religious leaders. They will at first find it difficult to believe. However they will very quickly change their minds after they read what follows here. They will read in these disclosures proof of their betrayal to their enemies by their political and religious leaders in whom they placed their trust.

Unfortunately for Christians in the United States, they paid little attention over the years to the warnings by this author to this threat to their security and survival. The disclosures which follow here now make it possible for Christians in the United States for the first time in their lives to understand the importance to them of their betrayal to their enemies by their political and religious leaders for a "Judas kiss," for their "thirty (dirty) pieces of silver" paid to political and religious leaders in the accepted 20th century manner to secretly compensate betrayers of public trust, as double-agents are now paid.

Christians in the United States either were kept in ignorance about the real meaning of what was going on under their very eyes, or for other reasons took little interest in what was going on around them. While conditions in the United States were going from bad to worse in recent years, Christians in the United States did little if anything to stem that tide. The time has now arrived when Christians in the United States must take the initiative necessary to reverse the present trend or suffer the consequences. Christians in the United States may still have time to make that choice but regretfully not much. It would be very helpful to know how much but the very little time that remains is rapidly running out, judging by the news.

It must be conceded on behalf of Christians in the United States, they had no reason for suspecting the identity of their enemies, scheming behind their backs all the time to implement their conspiracy. Their sudden awakening at this late date will come as a shock to Christians in the United States. They will not be able to understand that what has been taking place was not merely unrelated coincidences. They will surely see, beyond all question of any doubt, that their betrayal to their enemies was a conspiracy of long standing, a well-planned and well-executed conspiracy. Every Christian in the United States will now understand why political and religious leaders gratuitously made available to them the tools with which they were unwittingly destroying institutions so sacred to Christian tradition and customs.

The ignorance on this subject by which Christians in the United States have been kept in the dark by both their political and religious leaders is more a matter of their

"he says it like it is"

criminal negligence than of betrayal. Among the many other adverse consequences of that imposed ignorance, the United States was railroaded so far in this century into five wars, into World War I, World War II, the war in Vietnam, the war in Korea and the war in the Middle East. The United States was maneuvered into those five wars by the enemies in the United States of the Christian 93% of the entire United States population.

The United States did not engage in any of those five wars "in the best interests" of their Christian 93% of the United States population. Their diabolical motivations for railroading the United States into those five wars were to dig their grave for the United States a little deeper five times. Those five wars proved very useful in that respect. The United States surely would never have been railroaded into any of those five wars if the foresight of the Christian 93% of the population of the United States in those years was as good as their hindsight today.

The cost in lives and dollars of those five wars, to the Christian 93% of the United States population, by far surpasses human comprehension or mathematical calculation, even using computers. The final cost in lives and dollars cannot now be determined as the wars in Vietnam, Korea and Middle East are today far from over. The total cost of those five (5) wars in dollars alone must of necessity include future interest paid on United States obligations issued to finance those five wars and future pensions paid to veterans who fought in those five wars and to their dependents. The total today already staggers the imagination. That final total will look then like a lesson in astronomy.

The Christian 93% of the United States population bears the burden of 93% of the taxes of every description collected by all the Federal, State, County and Municipal

subdivisions of government. Experts unanimously agree that all taxes collected from individuals or corporations doing business in the United States are eventually reflected in the prices paid by everybody for "goods and services." They also confirm that taxes paid by organizations of every description are sooner or later added onto the prices of everything consumed, necessities as well as luxuries. The cost of those five wars is responsible for the high cost of living in the United States. This appears to be overlooked.

The Christian 93% of the United States population paid 93% of the cost in dollars to the United States for those five wars. They will likewise pay 93% of the future additional cost in dollars of three unfinished wars, the war in Vietnam, in Korea and in the Middle East. It is a mysterious phenomenon that Christians of the 93% of the United States population did not vehemently protest when President Nixon donated five hundred million dollars (\$500,000,000.00) to their enemies in the Middle East of the Christian 93% of the United States population, for an illegal occupation of the Middle East in violation of international law, the United Nations Charter, and forty-two Security Council resolutions. The Christian 93% of the United States population must provide 93% of that five hundred million dollars (\$500,000,000.00) for President Nixon to give to Zionists by paying increased taxes for that amount.

President Nixon shortly afterward promised another five hundred million dollars (\$500,000,000.00) from the same source and for that same purpose, without even a whimper from the Christian 93% of the population. Does the Christian 93% of the United States population today realize that additional taxes paid by them must make available to President Nixon 93% of that one billion dollars (\$1,000,000,000.00), which he so generously gave as a gift to Zionist aggressors in the Middle East? Are there no limits to what political and religious leaders in the United States will do to downgrade the United States everywhere in this world as the accomplices of crooks, before and after the fact, aiding thieves to retain possession of stolen plunder, abetting crooks to hold onto their stolen loot? Are their "thirty (dirty) pieces of silver" of so much value to them that their consciences will permit them to degrade and disgrace the country which did so much for them? How can the self-respecting countries of this world hold out their clean hands to the United States in honorable friendship?

There is another aspect to the Middle East situation which should receive consideration by the Christian 93% of the United States population. From the start of hostilities in the Middle East in 1948, political and religious leaders in the United States high pressured the United States to partake in a war fought upon a religious context, the "repatriation" of "God's chosen people" to their "promised land." Political
